FAQ Content

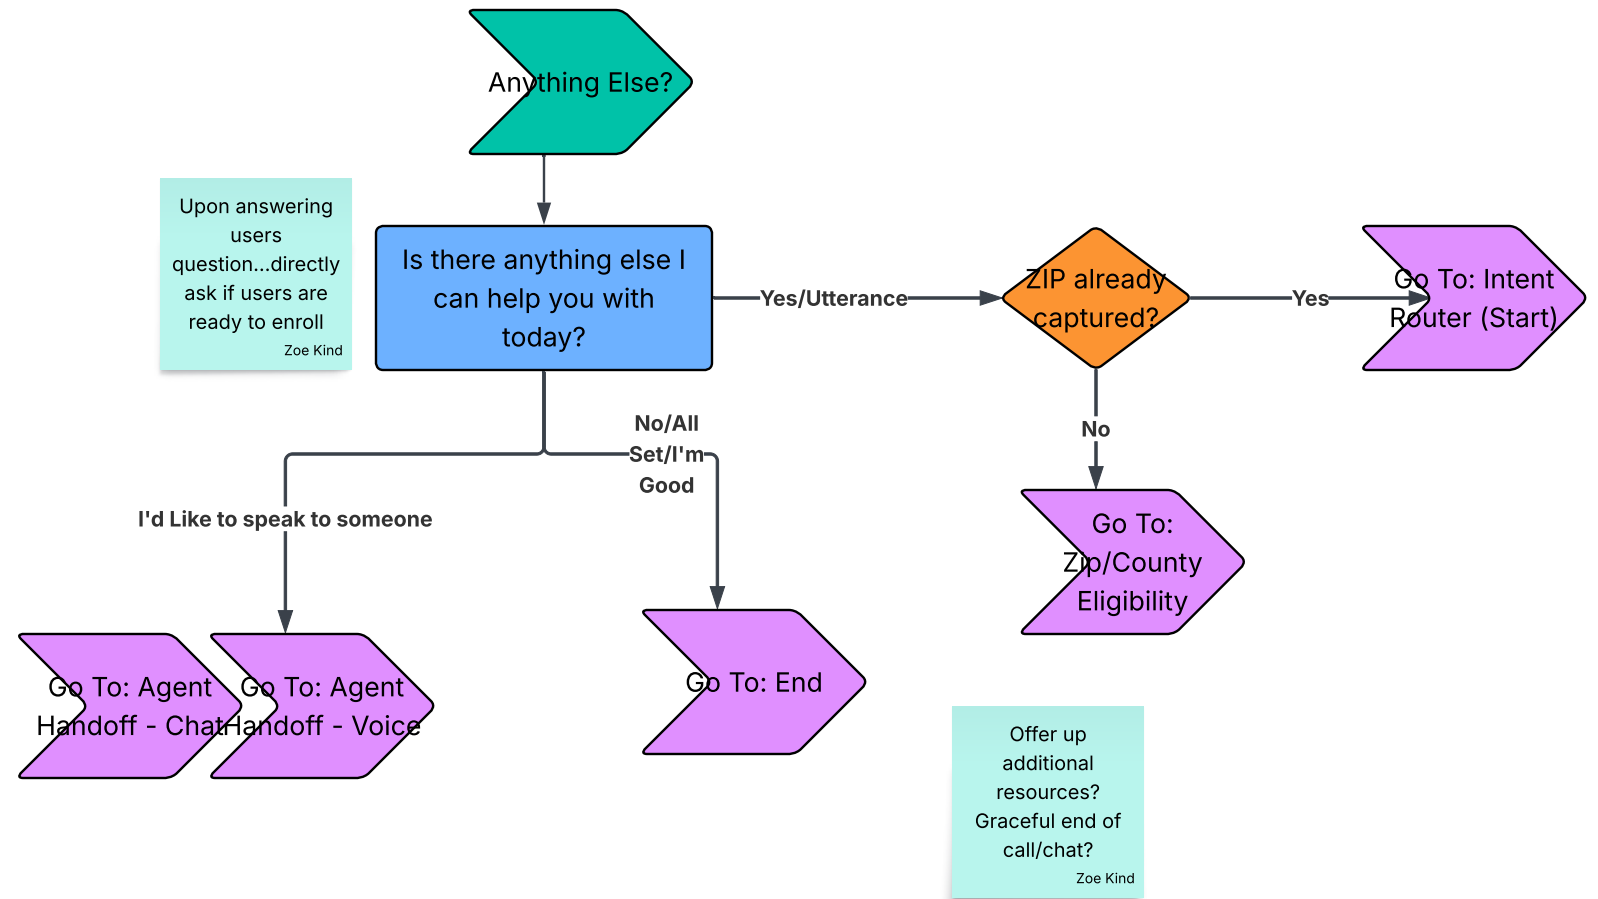

Guardrail: IVA cannot offer recommendations, select or enroll users within the experience. Ex: "I can help you understand what plans are different, but I cannot make a personalized recommendation. If you want to talk to a real person about your medical situation, I can schedule a callback or provide a phone number."

Guardrail: IVA will not encourage terminated MA members to enroll in BCBS MedSup. Instead, gently deflect them to shop the open market.cannot offer recommendations, select or enroll users within the experience.

Identified Out of Scope:
Inform the user that while the question is outside of what it is able to answer, it can assist with information related to 2027 Medicare plans. Ex: "I can't answer that." "That's not something I can answer"

System Error:
Acknowledge that something unexpected happened on the IVAs end. Where applicable, offer to retry or repeat to move forward.

No Match: After the initial prompt, the user will have a total of two (2) retries where the question is rephrased for the user (ex. "I didnt catch that) prior to reaching a point of handing the user off to an agent (voice) or informing user to call in for assistance (chat).

No Input: After the initial prompt, the user will have a total of two (2) retries where the question is restated prior to reaching a point of handing the user off to an agent (voice) or informing user that an inactive session will close.

Escalation detected - language:
Acknowledge the user is displeased and offer solutions, be it a phone number to contact or provide opportunity to request a callback.

Open question:
when to escalate to an agent on voice, and how to handle in chat (please try again later?)
